

Online Auto Dealer System (OADS) Manual

Version 0.90

NOTE! In this demo version some sections are not fully functional.

<http://carsell.rentalbooking.com/admin.php> - the "Log In" page (Screenshot 1.)

Login name: admin

Password: adminpw

Login name	<input type="text"/>
Password	<input type="password"/>
	<input type="button" value="Login!"/>

Screenshot 1. The Menu

After logging in, the administrator can choose the specific page from the menu (Screenshot 2.).

[Logout](#) [Add New Cars](#) [Add Old Cars](#) [Show/Remove Cars](#) [Administration](#)

Screenshot 2. The Menu

The first link, **Logout**, in the menu allows the administrator to log out.

The "Add New Vehicles" and "Add Used Vehicles" pages have very similar content and structure – the "Add New Vehicles" just does not have the **Year** and **Mileage** fields, in which the "Add Used Vehicles" has.

The “Add Used Vehicles” page

This page allows the administrator to add vehicles on the web. (Screenshot 3.).

Screenshot 3. The “Add Used Vehicles” page.

First, the administrator has to choose the type of vehicle he wants to add. There are six (6) types of vehicles and they are displayed as icons on the top of the page in the following order: cars, vans, trucks, trailers, motorcycles, others.

After the administrator has chosen the desired type of vehicle and has clicked on the specific icon, he has to fill the above fields to describe the details of the vehicle.

The page contains the following fields:

Make – the make name of the vehicle (drop-down menu – the data is inserted into this menu from the “Administration” page)

Body style – the body style of the vehicle (drop-down menu – the data is inserted into this menu from the “Administration” page)

Model – the model name of the vehicle

Engine – the data about the power of the vehicle’s engine

Year – the year, when the vehicle was manufactured

Price – the price of the vehicle (example: 10000.00)

Fuel type – the type of the fuel, the vehicle uses (drop-down menu – the data is inserted by the creators of the system).

Transmission – the type of the vehicle's transmission (drop-down menu – the data is inserted by the creators of the system)

Features – the administrator can insert all the information about the vehicle that is not covered by the other fields into this field

The price includes VAT tax – the check-box for marking if tax is included in the price of vehicle.

Leasing possibility – the check-box for marking if the vehicle can be leased.

New/used vehicle – this field doesn't exist unless the administrator has clicked **Save & Preview** button.

Leasing interest – if the vehicle can be leased, the administrator can insert here the interest of the vehicle.

Color – the color of the vehicle

Mileage – the mileage of the vehicle

Average fuel burn up – the average fuel burn up (example: 12.2 (l/100km))

Weight – the weight of the vehicle

Doors – the number of doors for vehicles.

Weight capacity – the weight, which can be loaded into vehicle

Seats – the number of the seats in the vehicle

Drive type – front-wheel, 4x4, rear-wheel, etc.

Manufacturer's URL – the URL of the vehicle's manufacture (example: <http://www.manufacture.com>)

Other info – this field is for the information that did not fit into the other fields

Location – if the auto dealership has many locations, the administrator can choose the location of the specific vehicle by this drop-down menu (drop-down menu – the data is inserted into this menu from the "Administration" page)

Sales Manager – this drop-down menu's content depends on the location the administrator has chosen. It has the names of the sales managers in this particular location. The administrator can choose the manager, who deals with the specific vehicle (drop-down menu – the data is inserted into this menu from the "Administration" page)

Special offer – if the vehicle price has a discount, the administrator can insert it by the following two (2) fields:

Price – the discount price of the vehicle (example: 10000.00)

Front page – administrator has to check this box, if he wants the vehicle to be displayed on the front page

After the fields are filled, the administrator clicks “Save & Preview” button. After which, the same page will open with the previously inserted data . Below the data there is a field to insert a picture (Screenshot 4.)

Now the **New/used vehicle drop-down menu** is existing and the administrator can use if needed. This menu allows the administrator to change the type (new or used) of the vehicle, if needed.

The administrator browses for the picture by clicking the “Browse” button and after the proper photo is chosen, clicks **OK** button.

New/Used Vehicle	New	Leasing interest	0
Other fields			
Color	red (dark)		
Average fuel burnup	10.2 (l/100 km)	Weight	1420
Doors	4	Weight capacity	525
Seats	5	Drive type	Rear-wheel drive
Manufacture's URL	http://www.bmw.com	Other info	
Location	Võru	Sales manager	Mario
Special offer			
Price	0.00	Front page	<input type="checkbox"/>
<input type="button" value="Save & Preview"/>			
Cars photo			
Add new photo	<input type="text"/>	<input type="button" value="Browse..."/>	
	<input type="button" value="Ok"/>		

Screenshot 4. Add the photo

After clicking **OK** button, the same page will open with inserted data and inserted photo (Screenshot 5.). It allows to add new photos and also change or delete previously inserted photos.

Please note! The order of pictures is the same on the website for visitors as in the administration module. The first photo is displayed in the list of the vehicles and also on the front page if chosen.

Special offer			
Price	9800.00	Front page	<input checked="" type="checkbox"/>

Add new photo	<input type="text"/>	<input type="button" value="Browse..."/>	
	<input type="button" value="Ok"/>		
Replace this photo	<input type="text"/>	<input type="button" value="Browse..."/>	<input type="button" value="Delete"/>
	<input type="button" value="Ok"/>		

Screenshot 5. Add the photo – 2

Show/Remove Vehicles

This page allows the administrator to view and change the inserted data about the vehicles. To get to the specific vehicle or group of vehicles, the administrator clicks on the type of the vehicle icon and uses the search system to receive their specific requirements. The search system contains the following options, which allow to narrow the search destination:

Make – the make of the vehicle

Body style – the body style of the vehicle

New/Used – the condition of the vehicle

ID – the ID of the vehicle

Vehicles per page – the number of vehicles to be displayed per page

The page is displaying the new cars by default.

After the administrator has specified the search, he clicks on the “Show” button to open the specific vehicle or group of the vehicles (Screenshot 6.). If the administrator is searching the vehicle by the particular ID number, the administration page of this vehicle will open.

After the page displays the wanted vehicles, the administrator can sort them by clicking the following headers: **ID**, **Make**, **Model**, **Year** and **New/used**. By clicking any of those headers, the system will display the data in the chronological or alphabetical order. The order of the display (from smallest to biggest or from biggest to smallest if chronological; from A to Z or from Z to A if alphabetical) can be determined by clicking the header for the second time.

To get to the specific vehicle’s administration page, the administrator clicks on the make of the vehicle.

To delete the vehicle, the administrator clicks on the **Delete** button of the specific vehicle.

???

Make:

Body style:

New/Used:

Search by id:

Vehicle per page:

<u>Id</u>	<u>Make</u>	<u>Model</u>	<u>Year</u>	<u>New/Used</u>	<u>Remove</u>
29	Audi	A2		New	<input type="button" value="Delete"/>
37	Citroen	C5		New	<input type="button" value="Delete"/>
36	BMW	X5 A		New	<input type="button" value="Delete"/>
35	BMW	523i		New	<input type="button" value="Delete"/>
39	Citroen	Xsara Coupe		New	<input type="button" value="Delete"/>
43	Ferrari	360 MODENA		New	<input type="button" value="Delete"/>
52	Toyota	Tundra		New	<input type="button" value="Delete"/>

Screenshot 6. The “Show/remove vehicles” page

The “Administration” page

The “Administration” page is divided into six (6) sections as followed:

Change password (this section is not active in the demo version!) – allows the administrator to change his password (Screenshot 7.). The administrator inserts his old password into **Old password** field, new password into **New password** field and new password for the second time into **Retype password** field. After the fields are filled, the administrator clicks **OK** button located on top, right-hand corner of screen

Please note! Remember your new password! After the password is changed, the old one can not be recovered.

Change password:				OK
Old password	<input type="text"/>	New password	<input type="text"/>	
		Retype password	<input type="text"/>	

Screenshot 7. Change password

Choose resolution (this section is not active in the demo version!) – this section is meant to change the sizes of the vehicles’ photos. There are four (4) different sizes:
Admin view (the photos the administrator sees in the administrator module)
User (front) page (the photos that are displayed on the front page for the visitors of the website)
User (list) page (the photos that are displayed on the list page for the visitors of the website)
User (details) page (the photos that are displayed on the vehicle’s details page for the visitors of the website).

After any of the sizes are changed, the administrator clicks **OK** button located on top, right-hand corner of screen

Choose resolution:				OK
Admin view(add/update)		User(front) page		
Height	<input type="text" value="130"/>	Height	<input type="text" value="200"/>	
Width	<input type="text" value="130"/>	Width	<input type="text" value="200"/>	
User(list) page		User(details) page		
Height	<input type="text" value="100"/>	Height	<input type="text" value="300"/>	
Width	<input type="text" value="100"/>	Width	<input type="text" value="300"/>	

Screenshot 8. Choose resolution

Location – the administrator can add, modify and delete different locations of the vehicles (Screenshot 9.).

If the administrator wishes to add new location, he inserts the name of the location into **Chosen** field, the e-mail address of the location into **Contact** field, chooses **Add new location** action and clicks **OK** button located on top, right-hand corner of screen

To modify the existing location data, the administrator chooses the location from the **Choose Location** drop-down menu and chooses the data in the **Chosen** or **Contact** fields. After the changes are made, the administrator chooses **Modify current** action and clicks **OK** button located on top, right-hand corner of screen

To delete the existing location, the administrator chooses the location from **Choose Location** drop-down menu, **Delete Location** action and clicks **OK** button located on top, right-hand corner of screen

Location:				<input type="button" value="OK"/>
Choose Location:	<input type="text" value="Select location"/>	Chosen:	<input type="text"/>	
Contact:	<input type="text"/>	Add new location:	<input type="radio"/>	
		Modify current:	<input checked="" type="radio"/>	
		Delete location:	<input type="radio"/>	

Screenshot 9. Location

Sales manager – this section allows the administrator to add, modify and delete sales managers (Screenshot 10.).

If the administrator wishes to add a new sales manager, he selects the location from **Choose location** drop-down menu. After that, he fills the **Name, Surname, Fax, E-mail, Phone** and **Second phone** fields, chooses **Add sales manager** action and clicks **OK** button located on top, right-hand corner of screen

To modify the data about sales manager, the administrator he selects the location from **Choose location** drop-down menu. After that, the list of sales managers at this location is displayed in the **Sales Manager** drop-down menu. The administrator chooses the specific sales manager and after that the information of this sales manager is displayed in the **Name, Surname, Fax, E-mail, Phone** and **Second phone** fields. After the information is changed in any of those fields, the administrator chooses **Modify current** action and clicks **OK** button located on top, right-hand corner of screen

To delete the sales manager, the administrator selects the location from **Choose Location** drop-down menu. After that the list of sales managers at this location is displayed in the **Sales Manager** drop-down menu. The administrator selects the specific sales manager, chooses the **Delete sales manager** and clicks **OK** button located on top, right-hand corner of screen.

Sales manager:				<input type="button" value="OK"/>
Choose Location:	<input type="text" value="Select location"/>	Sales Manager:	<input type="text"/>	
Name:	<input type="text"/>	E-mail:	<input type="text"/>	
Surname:	<input type="text"/>	Phone:	<input type="text"/>	
Fax:	<input type="text"/>	Second phone:	<input type="text"/>	
Add sales manager:	<input checked="" type="radio"/>			
Modify current:	<input type="radio"/>			
Delete sales manager:	<input type="radio"/>			

Screenshot 10. Sales manager

Vehicle's body style – allows to add, modify and delete vehicle's body styles.

To add new body style, the administrator chooses the type of the vehicle from **Vehicle's type** drop-down menu, inserts new body style into **Chosen** field, chooses **Add body style** action and clicks **OK** button located on top, right-hand corner of screen

To modify any current body style, the administrator chooses the type of the vehicle from **Vehicle's type** drop-down menu, chooses any of the body styles of this type, changes the data in **Chosen** field, chooses **Modify current** action and clicks **OK** button located on top, right-hand corner of screen

If the administrator wishes to delete any of current body styles, he selects the type of the vehicle from **Vehicle's type** drop-down menu, chooses any of the body styles of this type, chooses **Delete body style** action and clicks **OK** button located on top, right-hand corner of screen

Vehicle's body styles:		OK	
Vehicle's type:	Select car type ▼	Add body style:	<input checked="" type="radio"/>
		Modify current:	<input type="radio"/>
		Delete body style:	<input type="radio"/>
Body style:	▼	Chosen:	<input type="text"/>

Screenshot 11. Vehicle's body style

Vehicle's make – allows to add, modify and delete the make of the vehicles.

To add new make, the administrator chooses the type of the vehicle from **Vehicle's type** drop-down menu, inserts new make into **Chosen** field, chooses **Add make name** action and clicks **OK** button located on top, right-hand corner of screen

To modify any current make, the administrator chooses the type of the vehicle from **Vehicle's type** drop-down menu, chooses any of the makes of this type, changes the data in **Chosen** field, chooses **Modify current** action and clicks **OK** button located on top, right-hand corner of screen

If the administrator wishes to delete any of current makes, he selects the type of the vehicle from **Vehicle's type** drop-down menu, chooses any of the makes of this type, chooses **Delete make name** action and clicks **OK** button located on top, right-hand corner of screen

Vehicle's make names:		OK	
Vehicle's type:	Select car type ▼	Add make name:	<input checked="" type="radio"/>
		Modify current:	<input type="radio"/>
		Delete make name:	<input type="radio"/>
Make:	▼	Chosen:	<input type="text"/>

Screenshot 12. Vehicle's make
